

Required installation of plain concrete in Coachella

Requisitos para instalacion de concreto en la Ciudad de Coachella

This installation is required due to high sulphate content in the Coachella Valley. Installation of concrete directly on soil or of natural cements will result in accelerated deterioration.

Esta instalacion es necesaria dado al contenido alto de sulfato en la tierra del valle de Coachella. La instalacion de concreto directamente en la tierra/suelo o de cementos naturales resultara en deterioracion.

City of Coachella
